ESI Federally insured by NCUA.

Covid-19 Resources

With the widespread disruption to the economy, it's hard to find information you can trust on how this affects your finances. Our team has worked to improve the layout of the COVID-19 hub on your Enrich site. Now it is even easier to get the latest information. We will continue to update this site daily with new information such as:

How COVID-19 is Impacting Jobs and Where to Find Financial Support: We've listed more government resources including guidance from the Department of Labor, resources for small business owners, 211 resource, and more.

How the Government is Helping With Student Loans in Response to COVID-19: Has been updated to address Federal Family Education Loan Program (FFEL) disaster guidance.

COVID-19's Global Impact on Jobs and What Governments and Organizations Are Doing to Help: Has updated statistics and resources.

PLUS New resources from Enrich on personal finances, career, and education added daily. Additional resources on home schooling, mental and physical health, and more!

It's just one more way HealthCare Associates has you covered! You can access this information for FREE by clicking below.
